 LAGOS, NIGERIA

POPOOLA STEPHEN

Full-Stack Engineer with 3+ years shipping production web applications using React, Next.js, Typescript and Node.js. Experienced in taking ideas from rough concepts to reliable and efficient products, integrating third-party APIs, and making practical technical decisions in fast-paced environments.

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS

Frameworks: React JS, React native, Node JS, Typescript

Databases: MongoDB, PostgreSQL, MySQL, Firebase

Server-side: AWS, Netlify, Heroku, Vercel

EXPERIENCE

Leadway health, Nigeria — *Full-Stack Engineer*

JULY 2025 – Present

- Built and shipped an operations dashboard from scratch that automates medication request workflows across telemedicine, pharmacy, contact center, and billing teams—replacing manual WhatsApp coordination with real-time tracking and status updates.
- Architected and developed a secure third-party web application for enrollee verification and partner pharmacy coordination using React, Firebase, and RESTful APIs, handling 500+ daily transactions.
- Designed scalable database schemas in Firestore and implemented real-time data synchronization across multiple user roles, reducing data inconsistencies and improving cross-team visibility.
- Made key architectural decisions on API design, authentication flows, and service integration—shipping iteratively based on user feedback without requiring approval layers.

MOVAM Technologies, Nigeria — *Full-Stack Engineer*

JULY 2024 - JANUARY 2025

- Built and maintained production-ready React and Next.js applications, integrating backend APIs, payment gateways, and third-party services for B2B SaaS products.
- Improved development efficiency and reduced feature delivery timelines through clean component architecture, refactoring, and debugging best practices.
- Collaborated directly with backend engineers and product stakeholders to ship features end-to-end with minimal supervision.
- Authored technical documentation and established reusable component patterns that improved team velocity and code maintainability.

PEDAGOGIC HUB, Nigeria — *Full-stack Engineer*

FEBRUARY 2022 - JUNE 2024

- Developed responsive web applications for an e-learning platform using React, Next.js, and TailwindCSS, supporting 2,000+ active students.
- Built interactive course interfaces with real-time progress tracking and integrated third-party educational APIs.
- Collaborated with designers and developers on accessibility improvements and UI/UX optimization.

EDUCATION

University of Lagos, Nigeria

BSc. Biochemistry

Zuri Team, Nigeria

Frontend Development Certification (HTML, CSS, JavaScript)
